THE SAVERGLASS DIFFERENCE

HIGH QUALITY PREMIUM GLASS & DECORATION

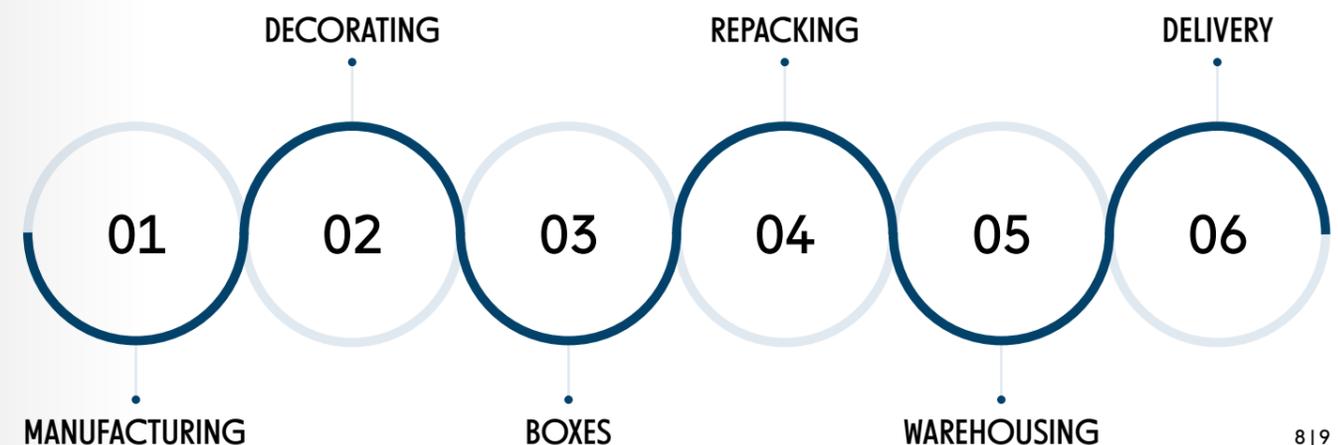

- Our mission is to offer bottles with innovative design, that combine optimal weight and high quality, with no risk for consumers.
- Our International School of Glass assures our master craftsman consistency across our global facilities.
- Our externally validated commitment to efficient and consistent quality as well as customer satisfaction dates back to 1993, when Saverglass became the first glass manufacturer to receive ISO 9001 Certification.

INTEGRATED LOCAL SUPPLY CHAIN SUPPORT

- Dedicated sales, customer service, quality control and logistics team.

COMPREHENSIVE PACKAGING SOLUTIONS

We're your high quality one-stop shop for your packaging needs; shifting your supply chain management into a simple, streamlined and convenient process, including reducing your carbon footprint.

STOCKING PROGRAM WINE

From our US warehouses we are proud to offer an expanding collection of floor stock bottles carefully curated to provide immediate access to beautifully pre-designed options without compromising on quality.

- Accelerated speed to market by bypassing the design phase and leveraging in-stock inventory.
- Exceptional value with no sacrifice in quality. You pay only for your share of larger, shared production runs.
- A broad selection of distinctive shapes available in Antique Green, Champagne Green and Extra White Flint colors.
- Minimum order as low as one bulk pallet.
- Evolving inventory, with new options introduced based on customer demand.

WAREHOUSING SOLUTIONS

- Class A building
- Short-term storage

REPACK BULK TO CASES

- Custom sizes or stock size options
- Kraft or white content stock colors
- Custom litho or flexo print available

DELIVERY SERVICES

- ■ Ship direct by container BULK from France
- ■ Ship direct by container BULK or CASED from UAE
- ■ Delivery (or will call) BULK or CASED from a US Warehouse
- Full Truck Load
- Limited Truck Load

BX CHERRY OPTIMUM 750 ML PREMIUM

CHERRY OPTIMUM retains the timeless elegance of historic bordelaises thanks to its emblematic details: a rounded shoulder, a slightly tapered body, a punt of 20 mm and a height of 313 mm. With its featherweight of 419 g and distinctive attributes, this is one of the most competitive models in the catalog. Its versatility is also a major asset, offering perfect compatibility with corks and Vinolok. Designed to meet international requirements, this bottle complies with export weight criteria, while also falling into the “sustainable choice” category.

PERSONALIZATION ARKENSTONE CASE STUDY

Developing packaging of very high quality is much more than a simple project. Success is often defined through trusted partnership and informed discussions founded on four pillars: creation, mastering tailor-made solutions, technical advise and project monitoring.

PERSONALIZED SAVERGLASS DESIGN

A VISION ROOTED IN HERITAGE AND PASSION

Ron and Susan Krausz combined their love of wine with a deeprooted family heritage in farming to transform a remarkable Howell Mountain property into one of Napa Valley's most respected vineyards and wineries. Since acquiring the estate in 1988, they have remained deeply committed to preserving and elevating this exceptional land.

OLD WORLD TRADITION MEETS MODERN EXCELLENCE

With a thoughtful balance of Old World tradition and modern innovation, and in collaboration with renowned winemaker Sam Kaplan, Arkenstone released its first vintage in 2006. Since then, the winery has cultivated a loyal following, with each vintage revealing the unmistakable character and longevity of the estate's wines-crafted to enjoy upon release or cellar for decades.

A DISTINCTIVE BOTTLE FOR A TIMELESS BRAND

As Arkenstone's reputation grew, so too did the desire to create packaging that reflected the elegance and stature of the brand. Having partnered with Saverglass for over 20 years, Sam naturally turned to us to develop a custom bottle for Arkenstone's Estate wines. Transitioning from the classic Saverglass designed '1855' model, Saverglass utilized their 'ICON' silhouette to incorporate Arkenstone's bespoke base and gem icon in the deepest part of the punt. Thanks to a trusted collaboration and precise design execution, the very first sample was approved without revision. Arkenstone's personalized bottle is an ideal expression of the brand's refined identity and enduring legacy.

STOCK, EMBOSSING, DECORATION & BESPOKE CALDWELL CASE STUDY

Caldwell Vineyard, a historic estate in Napa Valley, is renowned for crafting wines with bold character-and packaging that reflects it.

Each wine is given its own distinctive packaging identity, embodying the Caldwell philosophy of innovation, elegance, and individuality.

A SIGNATURE BOTTLE FOR A VISIONARY ESTATE

John Caldwell is a pioneer in the American wine world. Over the past 40 years, he has transformed his Napa estate into one of the most unique vineyards globally, cultivating 28 different cloned grape varieties. As a key figure in introducing ENTAV-INRA clones to North America, his influence continues to shape modern viticulture. Caldwell is also among the few wineries worldwide to operate its own cooperage. In 1997, John and his wife Joy partnered with Saverglass to design a bottle for their first red wine, the Caldwell “Silver” Proprietary Red. The bottle needed to express the estate’s luxury and vision-elegant, refined, and unmistakably bold.

ELEGANT DESIGN MEETS CRAFTSMANSHIP

Saverglass brought this vision to life with a conical, high-shouldered silhouette, delicate shoulder embossing, and precious metal screenprinting in gold or platinum. The result is a bottle as refined and luxurious as the wine it holds-distinctive, beautiful, and undeniably Caldwell.

CSR ROADMAP

IT'S ALL ABOUT NATURE

TRANSFORMING OUR PROCESSES TO REDUCE OUR CARBON FOOTPRINT

In order to contribute to the fight to curb global warming, and to reduce our environmental footprint, we are committed to developing a more sustainable glassmaking process.

1. Optimizing our usage of RAW MATERIALS AND PRESERVING RESOURCES
2. Reducing our INDIRECT EMISSIONS
3. Innovating to change the WAY WE WORK
4. Reducing the WEIGHT OF OUR BOTTLES
5. Investing in LOW-CARBON FURNACES

From cleaner energy to smarter operations, we're taking measurable steps to reduce our carbon footprint. Scan the QR code to learn more about our decarbonization strategy in action.

IT'S ALL ABOUT PEOPLE

GUARANTEEING THE SAFETY OF OUR TEAMS AND SUSTAINING OUR EXPERTISE

The objective of our social policy is twofold: to guarantee good working conditions - in terms of safety, pay, well-being and mobility - and to sustaining the wealth of know-how present within the Group.

1. Looking after the HEALTH AND SAFETY OF ALL COLLEAGUES
2. Nurturing and DEVELOPING SKILLS
3. COMBINING ECONOMIC DEVELOPMENT WITH QUALITY OF LIFE AT WORK
4. Increasing DIVERSITY AND EQUAL OPPORTUNITIES

IT'S ALL ABOUT COMMUNITIES

SUPPORTING LOCAL DEVELOPMENT

As a growing business, we have a duty to participate, in our own way, to the sustainable development of the territories in which we are rooted.

1. Contributing to LOCAL ECONOMIES AND SOCIETIES
2. Expanding our RESPONSIBLE PURCHASING EFFORTS

Glass has many advantages, including being infinitely recyclable, but it is considered a heavy packaging material. One of the biggest levers to greatly reduce our customer's CO₂ emissions is reducing the weight of their bottle.

RIGHTWEIGHTING INCLUDES COMPLETE MODELING OF THEIR EXISTING PRODUCT DESIGN WHILE MAINTAINING ITS UNIQUENESS, AESTHETICS, STABILITY, FORM, QUALITY AND SAFETY.

Whether we are reducing the weight for our customer's specific design or our own proprietary designs, the transition enables our customers the ability to reduce their bottle weight by up to 30%, providing an equivalent reduction in CO₂ emissions.

UP TO 30% REDUCTION IN CARBON EMISSIONS
